

ELEVATING WERRIBEE

Pete Stamp, Youth Pastor at Wyndham City Salvos, and his team have been running programs at Werribee SC for years. They have built credibility and respect from the school through faithfully running a breakfast program, offering one-on-one mentoring for students, running community action days, and have recently begun running an afterschool program!

But this year Pete decided that partnering with SU Victoria would be really beneficial to the ministry and so the team will be joining the Elevate community! “I really like the Elevate framework”, shares Pete, “It helps build a framework for what our schools ministry is aiming for. I want my team to have more support and I think the training that SU offers will be exactly what my team needs. My team needs good training and resources and this is a big reason why I want our team to join Elevate.”

One of Pete’s youth leaders, Melissa Furniss is also undertaking the Church Internship program through SU Vic. Melissa will be working towards a Diploma in Youth Work, and doing placements in her church’s youth ministry and Elevate schools ministry. “I’m really looking forward to growing in my leadership through this internship,” shares Melissa, “I’m really excited about the next two years and seeing what God will be doing in our young people in Werribee”.

Pray for Pete, Melissa and their youth team as they start the year in expanding and deepening their ministry to young people in Werribee!
