

# SU BREAKFAST CLUBS

A great many children come to school in the morning starving for attention, not just cereal. Starting the day with good nutrition and positive interaction can make an enormous impact on a child's educational performance, and the life of the school community.

SU currently runs breakfast clubs in urban and rural Primary and Secondary Schools across Victoria. SU builds partnerships with local churches and community volunteers for each Breakfast Club to support the local school and community.

Childsafe training, volunteer checks and registration, insurance, access to ongoing coaching and SU's experience are all part of the SU partnership.

Further information about SU Breakfast Clubs can be found on our website, or call us for a Breakfast Club Kit.

## SU ELEVATE

*SU's ELEVATE programs aim to dynamically:*

***CONNECT** with young people and school communities*

***BUILD** up positive values and resilience in young people*

***EMPOWER** young people to transform their school and community*
